

Kep Kaeppler

Mashpee, MA | kep@kepweb.dev | linkedin.com/in/kep-kaeppler | github.com/Keparoo

Profile

Full stack web developer skilled in Javascript, Python, ReactJS, HTML5, CSS3, SQL, and testing

Skills

Languages: Javascript ES6, Python, PHP

Frameworks: ReactJS, Redux, Flask, Node.js, jQuery

Web Tech: HTML5, CSS3, Express, Jest, PyTest, Git

Databases: PostgreSQL, MySQL, Alembic migrations

Projects

- [Tapntable](#)—A web-based restaurant point-of-sale system (POS) creating an application for servers, bartenders, and managers to run restaurant operations including orders, timeclock, and inventory.
Backend: PostgreSQL database with a RESTful API using Node.js, Express, and a Jest test suite.
Frontend: Single-page React-Redux user interface managing orders, checks, payments, end-of-day reconciliation, sales reports, timeclock, and database management.
- [Tuttitracks](#)—A web app leveraging the *Spotify* API to search for and save song tracks and audio information including tempo, time signature, and key. A user can create and edit playlists that may be uploaded to the user's Spotify account.
Backend: Python with a PostgreSQL database, a RESTful API, OAuth authorization, and unittest test suite.
Frontend: Python, Flask, and Jinja2 templates.
- [Casting Agency](#)—A web API to manage movies and actor assignments for a casting agency.
Backend: PostgreSQL database with a RESTful API using Python and Flask, role-based access control authorization, test suite, and deployed to Heroku.

Relevant Experience

Springboard, Software Engineering Fellow

August 2021–May 2022

- 700+ hours of hands-on course material with 1:1 industry-expert mentor oversight, and completion of 4 in-depth portfolio projects
- Mastered skills in front-end web development, back-end web development, databases, data structures, algorithms, and testing
- *Core skills:* ES6 JavaScript and Testing, DOM Manipulation, Event-Driven Programming, AJAX, jQuery, Git/Terminal/Github, ReactJS, Redux, SQL, PostgreSQL, Flask, Node, Express, Authorization, Data Structures and Algorithms, Unit/Integration/End-to-End Testing

WebToSmart, Freelance Web Developer/Designer

2012–Present

- Design and develop websites for local restaurants, small businesses, and individuals
- Manage social media ad campaigns for local restaurants

WebToSmart, Freelance Tech Consultant

2012–Present

- Problem solve computer, mobile, and IoT installation and use for small businesses & individuals
- Train clients in the effective use of their hardware and software

Education

Springboard, *Software Engineering Boot Camp*, Certificate

Aug 2021–May 2022

Udacity, *Full Stack Web Developer Nanodegree*, Certificate

Mar 2021–July 2021

Coursera, *Deep Learning Specialization*, Certificate

Jan 2020–Apr 2020

University of NH, *130 credits* in Computer Science and Music
